PRINCIPAL'S MESSAGE

Education is not a destination but a journey in itself that turns an entity into a human being which is the biggest need of the hour. The core purpose of education is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which needs to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. We are inspired by these tenets in everything that we do at Shri Hari Public School. We, at Shri Hari Public School, look at children as individuals and not as a class. We groom and nourish each child independently, for all required distinct attention. We build an atmosphere where each child explores multiple activities, and experiences challenges to find his/her own strengths. Life demands a healthy and intelligent mind, with a healthy body.

Our curriculum has been especially designed to make it inclusive; where physical, emotional and mental needs are equally significant. Unlike the traditional method of teaching, where the focus is on the trainer, our approach is learner-centric. We maintain a democratic and participative culture with mutual respect and appreciation for individual values. There is a constant endeavor at our end to keep ourselves at par with the ever changing environment. Various orientation workshops are held at regular intervals for teachers to absorb the vision, align with the values and take ownership for our mission and the curriculum. The school, next to the family, takes special responsibility in equipping children with the right attitude and skills that would help them become achievers. Modern infrastructure, continuous realignment of curriculum, Committed with pedagogy, our skilled teachers are the ingredients of Shri Hari Public School. As a concerned parent, your search for an effective collaborator to attend to your child's scholastic and versatile needs concludes at our knowledge temple.

Balancing Sound Mind and Body

To keep the body in good health is a duty, for otherwise we shall not be able to trim the lamp of wisdom, and keep young minds strong and clear. Complementary to each other, these two aspects of development are a quintessential part and parcel of a healthy existence. At SHPS we consistently persevere to strike the chord that effectively balances the two. Various games in school ensure the existence of a healthy fitness in our students. A refreshed and active mind stimulates openness and alertness of the mind.

At SHPS, we hope to nourish our students for the challenges of the future simultaneously ensuring that their childhood is not swallowed up by the onslaught of the pressures of today's competitive world. In order to bring about a fuller development of the child's personality, considerable emphasis is laid on intra mural and extra- curricular activities which challenge not only the physical but also the mental capabilities of our learners. Through healthy minds which are motivated to, explore by undertaking meaningful field-trips and excursions, imagination and creativity is propelled and physical well being ensures agility and activeness of the learners.
